"I am looking for a new challenge there I can be able to use my experiences and skills to grow and continue with a company for moving forward."

Summary

From earlier age I was a problem solver. It was to me my relatives and friends turned to me when they needed help with computers, mobiles, fixing TV channels and satellite dishes. The job as a teaching assistant made me realize I am really good with difficult students. I have been programming in C# for the past few years. I am capable and can implement Python, frontend, backend and debugging. To implement applications in Python will be captivating for me and gives me the chance to develop more with you. I can quickly adapt to a group and am decisive and goal-oriented even when difficulties occur. My goal is to be able to use and convey my interest, my knowledge and broaden my experiences in app and web development.

P.S.: Right now, I am in Taiwan with my family. I can only be reached by e-mail.

Education

University of Gävle   *Gävle, Sweden*

IT SYSTEMS DEVELOPMENT IN GEOGRAPHICAL INFORMATION SYSTEMS   *2016.09 –*

- IT System Development in Geographical Information Systems focuses on the development of software and systems with a special direction on geographical information systems (GIS).

Malmö University   *Malmö, Sweden*

PROGRAMMING IN C# II   *2023.02 – 2023.06*

- Development of in-depth knowledge of programming using the C# language and the .NET Framework's advanced data structures, encapsulation, inheritance, delegates, events and polymorphism. Advanced user interfaces using WPF or MAUI.

Malmö University   *Malmö, Sweden*

PROGRAMMING IN C#   *2021.08 – 2022.01*

- Development of basic programming skills to build well-structured applications. To use .NET framework to develop useful programs with graphical user interface

Malmö University   *Malmö, Sweden*

WEB DEVELOPMENT II - CLIENT   *2021.08 – 2022.01*

- Development of basic skills in web programming with a focus on the client side. To produce web applications based on current standards and web technologies

Mid Sweden University   *Sundsvall, Sweden*

COMPUTER SCIENCE BA (B), XML   *2021.03 – 2021.06*

- Basic concept and practical assignments within XML. To create XML-schema, document templates, use CSS to present XML-document and get a look how XML is used in a programming language.

Stockholm University   *Stockholm, Sweden*

PROGRAMMING TECHNIQUES   *2017.10 – 2018.11*

- Basic computer science concepts and processes: data structures and simple graphics.

Royal Institute of Technology   *Stockholm, Sweden*

PREPARATION COURSE IN PROGRAMMING AND COMPUTER SCIENCE   *2017.04 – 2017.04*

- Basic knowledge of computer and programming in Python.

Skills

Database	JSON, SQL, MS SQL Server, PL/SQL, PostgreSQL, SpatiaLite, XML, XSLT, CSV
Front-end	Tkinter, WPF, WinForms, React, Bootstrap, Dojo Toolkit, ExtJS
Back-end	Django, REST API, ExpressJS, ASP.NET Core
Geographic Information System	ArcGIS, QGIS, C# (ArcObjectsSDKNet), Python (arcpy), JavaScript (OpenLayers, Leaflet)
Programming	Java, Python (Numpy), C# (.NET), JavaScript (jQuery), Typescript, Kotlin, Matlab, LaTeX
Design Software	Eclipse, Visual Studio, PyCharm, Intellij Idea, Notepad++, Microsoft Office, LibreOffice
Languages	Swedish, English, Kurdish, Turkish, Mandarin, Spanish, German

Experience

Malmö University   *Malmö, Sweden*

TEACHING ASSISTANT   *2022.02 –*

- Grades assignments, answers questions in discussion and helps with code problems
